

IMPORTANT INFORMATION YOU SHOULD BE AWARE OF FOR YOUR TATTOO APPOINTMENT

My name is Georgina Westley and I am the business owner of Distinctive Features Cosmetic Tattoo and Beauty. The business is located at 1/7 Development Blvd, Mill Park 3082.

We have listed some important information you need to be aware of before you visit for your appointment.

TATTOO METHODS

We use two different methods of cosmetic tattooing.

Method 1 – Microblading is used for hair stroke. This technique is done by hand with a small disposable tool which has tiny needles in a row, the skin is lightly scratched into hair strokes and pigment is pushed into the strokes to make them darker, this is the most natural technique to get the best natural looking brows, and that is why I use microblading. This method does not last as long as block colour brows and is never completely even until after your perfecting touch up session at 4 weeks.

Method 2 – Digital Tattoo Machine is used for 'Powder/Block' brows, eyeliner and lip tattoo's. Most people are familiar with this as it is where you feel the buzzing and vibration of a tattoo machine.

TREATMENT

Initial treatment takes about 1-1.5 hours. A perfecting touch up session takes about 30-60 minutes. Children under the age of 18 are not permitted in the room due to WHS law.

PLEASE NOTE – We do not allow friends or family in the room during your treatment as this may cause distractions for our technician. If you need to bring your child please make sure you have someone who is able to look after them outside of the consultation room.

EYELINER TATTOO PREPARATION

If you are having an eyeliner tattoo **YOU MUST REMOVE FALSE EYELASHES AND ALL TRACES OF LASH GLUE** prior to your appointment.

BOOKING FEE DEPOSIT (*Booking fees are accepted via debit or credit card*)

An amount of \$100 deposit is required to secure your appointment. This amount is non-refundable if you cancel your appointment within 48 hours prior to your appointment time.

Please be aware that Georgie's schedule is very busy, if for some reason you cannot attend your appointment, we cannot book you in on another day, we unfortunately need to put you on our waiting list, clients who are needing their perfecting sessions will get priority.

DRUG INTERACTIONS

If you are using ROACCUTANE, RETIN-A or photo sensitising antibiotics eg: Doxy Cycline and high doses of anti-inflammatory medicine or topical medical creams you cannot be treated until 6 months after you have ceased usage of these drugs. Some antibiotics and anti-inflammatory drugs interact with the tattooing adversely. Please inform the staff at Distinctive Features BEFORE your treatment date as you may need to be cancelled.

INITIAL APPOINTMENT PRICE *(Prices are subject to change at any time)*

Please view prices from our website.

Prices are per website/booking system. All new clients are treated as a NEW tattoo even if you have old tattoo done by another technician.

TOPICAL CREAMS

Numbing Creams

If you have booked an appointment you will need to buy a small tube of Emla or LMX. The cost of these creams is about \$18 and can be purchased from a Chemist.

Aftercare Creams

We provide Tattoo Aftercare creams. These creams are applied to the tattooed area after your treatment. Tattoo Aftercare cream is \$15.

You can also purchase Bepanthen cream from a chemist and apply it to the tattooed area after your treatment.

APPOINTMENT PREPARATION

Do not wear white or light coloured clothing.

Wash your hair the night before or morning of your appointment as you will not be able to wet your brows for 5 days following your treatment.

One hour before your tattoo appointment you should apply nearly all of the tube of Emla cream to your brows and then cover it with glad wrap, or apply the patch from the chemist. Follow the instructions carefully. The glad wrap stops the cream from drying out and is more effective than the patch. Arrive at your appointment with the glad wrap or patch on. Most people fold the glad wrap into a long strip and clip it to either side of your hair line to keep it on your eyes. If the numbing cream is not applied correctly it won't work. You do not have to use any numbing cream, however if it is not used the beginning of the treatment can be painful. I use a numbing solution during the treatment which numbs the skin well.

PERFECTING SESSION

A touch up is required to ensure your tattoo is as accurate as can be. You may need two touch ups if you are having your lips tattooed.

Up to 4-6 weeks after initial appointment. Refer to our website for current treatment prices www.distinctivefeatures.com.au/treatment-prices.html

Everyone's skin takes tattoo pigment differently, because of this many people need touch ups at different stages especially for hair stroke brows as the tattoo does not last as long as a block colour tattoo.

MAINTENANCE SESSION

After initial touch up

Refer to our website for current treatment prices www.distinctivefeatures.com.au/treatment-prices.html

PAYMENTS

Credit and EFTPOS facilities are available for your convenience.

Note – I do not offer discounts as my prices are already discounted compared to most other high end cosmetic tattooists.

VOUCHERS

Vouchers are available to purchase.

ARRIVING ON TIME

If you are more than 15 minutes late to an appointment, you may not be seen.

CANCELLATIONS

Please be aware that if you do not give us 48 hours' notice of cancellation your deposit will be forfeited.

RIGHT TO REFUSE TREATMENT

We reserve the right to refuse treatment for any reason.

IMPORTANT INFORMATION FOR PREGNANT/ BREASTFEEDING CUSTOMERS

If you are pregnant you will need to provide a medical note from your doctor before you are allowed to be tattooed. Some numbing creams cannot be used during pregnancy and it is important to specify that the numbing ingredients used are Lidocain 5% and Tetracain 5%, Epinephrine 0.5%

If you are breastfeeding, you need to be able to pump and dump two feeds straight after the treatment due to anesthetics in the milk.

*If you suffer from any nervous or anxiety disorders please consider carefully if this is something for you as the process takes a good 6 weeks to be completed and can be an anxious wait as the treatment is not perfected until after healing of the touchup.

There are before and after photos and testimonials from customers on my facebook page at Distinctive Features Cosmetic Tattoo and Beauty.

Feel free to email me at info@cosmetictattooandbeauty.com.au or telephone me if you have any questions. Our phone number is 0410171438.
